Local Attractions & Points of Interest

Bojnice Castle, Bojnice

Bojnice Castle is one of the oldest and most significant historical monuments in Slovakia. The first written mention of its existence dates back to the year 1113, found in a document from the Zobor Monastery. Originally built as a wooden fortress on the site of an older hillfort, it was later transformed into a romantic-style castle, while still preserving elements of its original Gothic and Renaissance foundations. Located in the Trenčín Region on the western edge of the town of Bojnice, the castle is visible from much of the Upper Nitra Valley. It is built on a travertine hill and consists of inner and outer sections, including three courtyards. In 1970, Bojnice Castle was declared a National Cultural Monument.

Bojnice Zoo, Bojnice

Bojnice Zoo is the oldest and most visited zoological garden in Slovakia. It first opened to the public on April 1, 1955. Today, it spans an area of 41 hectares, offering a general exhibition of various animal species rather than specializing in a particular group. In the past, special attention was given to the breeding of Eurasian lynxes, flightless birds (such as emus and rheas), and mountain goats. The zoo is located near Bojnice Castle, making it a perfect addition to a family-friendly day trip.

Trenčín Castle, Trenčín

Trenčín Castle is the dominant landmark of the city of Trenčín and the entire Považie region. It historically guarded ancient trade routes connecting the Mediterranean with the Baltic and northern Europe. In the times of Great Moravia, a fortified settlement stood on this site, serving as an administrative center for the surrounding region. The current castle was established in the 11th century as a frontier fortress, protecting key fords along the Váh River and Carpathian mountain passes used by important trade caravans linking northern Hungary and central Slovakia with Bohemia, Moravia, Silesia, and Poland. Over the centuries, it served as the seat of a royal county and later a noble district. Today, Trenčín Castle houses exhibition halls and historical displays curated by the Trenčín Museum.

Security & safety

In-room Safes and Security

Each guest room is equipped with a safe for your convenience and privacy. Please note that these in-room safes do not replace the safety deposit boxes available at the reception. We strongly recommend that money, jewelry, documents, and other valuables be stored in the safety deposit boxes at reception.

The hotel cannot be held responsible for valuables not stored in the safety deposit boxes at reception. Use of the in-room safes does not increase, extend, or modify the hotel's liability under any applicable laws, regulations, or policies.

Upon arrival, you will receive a coded room key card that does not identify your room number if lost. For added security, please use the door lock while inside your room to prevent entry with a regular key. If you lose your key card, notify reception immediately so the lock can be deactivated. For your protection, you will be asked to verify your identity. Please return your key card to reception upon check-out.

For your safety and protection, always ensure your room door is closed and locked.
